

FEATURES

AUSTRALIAN STANDARDS COMPLIANCE

AS/NZS 3749.1-2003 Approved*

AS/NZS 4601:1999 Approved (inc amendment #1)

IMMOBILISATION

Two independent circuits of engine immobilisation

Auto-Arming Immobiliser

Third independent circuit of immobilisation

METHOD OF OPERATION

Touch Key Tags

Transponder Tags

Radio frequency remote controls

Remote controls have built-in transponder

EMERGENCY OVER-RIDE

Four digit Personal Identification Number (PIN)

High security siren over-ride key

AUDIO OUTPUT

Audible arm /disarm & trigger confirmation

120dB standard siren

120dB mini battery backup siren

120dB full size battery backup siren

Siren features soft chirp arm /disarm sound

VISUAL OUTPUT

Visual arm /disarm & trigger confirmation

Super bright LED status indicator

Window super bright blue status indicator

Full trigger diagnostics

INTRUSION DETECTION

Doors, boot & bonnet protection **

Glass breakage sensing

Shock sensing

Tilt sensing

Microwave sensing

Ultrasonic sensing

PROGRAMMABLE AND OPTIONAL FEATURES**

Selectable siren / horn output

Keyless Entry Central locking trigger output

Auto re-lock Anti hi-jack

Remote courtesy light activation

Remote panic/ car location feature

Remote boot release

Remote window closure

WARRANTY

Two year manufacturers warranty (terms and conditions apply)

* Australian Standards AS3749.1:2003 includes Class A and Class B.

** Features may incur extra cost and may not be installable in certain vehicles.

YOUR DEALER IS:

SUPERIOR

VEHICLE

SECURITY

DYNAMCO is predominately famous for industry compliant **CYCLOPS PARALYSER** engine immobilisers and car alarms. Now Dynamco applies this reliability and ethos to produce a range of central locking and keyless entry products. With an emphasis on convenience, user friendliness, reliability and enhanced with comprehensive features at an affordable price.

The **CYCLOPS** base level range includes central locking kits to suit an array of vehicles, remote keyless entry systems, engine immobilisers and the well featured and super priced **661** remote car alarm system.

● GLOBALLY PROVEN, WORLD STANDARD!

You can rely on a **CYCLOPS** vehicle security system, just like over half a million motorists worldwide and car manufacturers alike that trust **DYNAMCO!**

All **CYCLOPS PARALYSER** systems are tested and approved to Australian Standards **AS/NZS4601:1999** or **AS/NZS3749.1:2003** and in many cases - both!

The world-class range of Dynamco products designed and engineered in Australia since 1989, are manufactured in an ISO 9002 facility.

The **CYCLOPS PARALYSER** range of immobilisers and alarms form the core of **DYNAMCO'S** world-renowned design philosophy for industry compliant systems. All **CYCLOPS PARALYSER** systems are tested and approved to the rigorous Australian Standards.

With our extensive range of approved products, there is a Cyclops Paralyser system to suit your requirements. Regardless of which product level you choose, security and compliance is not compromised. Whether it's the best value P165 Touchkey immobiliser, through the entire range, to the P785 remote engine immobiliser / car alarm, your security is assured.

● SECURED WITH CYCLOPS CONFIDENCE!

Likewise, peace of mind is assured when choosing a **CYCLOPS PARALYSER** system. Safety, security and reliability are ingrained within each product. Whether it's the •18,000,000,000,000,000,000,000,000 codes and random encryption technology used to make systems immune to code grab • high security P.I.N over-ride with over 50,000 combinations • difficult to open control modules • two circuits of immobilisation • all black identical unidentifiable wiring • the fully concealed plugs and components. You can be confident That you car is secure with **CYCLOPS!**

The proven range of **CYCLOPS PARALYSER** remote immobilisers and car alarms has been further developed with the **SEVEN SERIES** range.

The engineering wizardry at **DYNAMCO** has combined the random encrypted remote transmitter with state of the art modern transponder technology. The **SEVEN SERIES** is a range of super easy to use high security systems packed with all the features you have come to expect from the world class **CYCLOPS** brand. Plus: • intelligent new automatic immobiliser disarm • ultra bright blue dash board status • diagnostic reporting LED • additional programmable options.

● INNOVATING TO MAKE YOUR CAR SAFE!

CYCLOPS is just one of the brand names of our famous vehicle security systems. Behind the name is **DYNAMCO**, specialists in the electronic vehicle security field with numerous industry firsts. Pioneers in transponder alarm technology, random encryption and wireless intelligent relay immobilisers, it is not surprising **DYNAMCO** received the prestigious Australian Design Award in 1990.
